Quantum Jumping–The Powerful Visualization-Meditation Process That Allows Anyone To Tap Into Their Subconscious Mind

Quantum Jumping is a technique used to tap into your subconscious mind to draw out guidance and wisdom to help you progress towards your goals. It’s based on the Theory of Parallel Minds (which is a blend of the Eastern Philosophy of Multiple Lives and Western Quantum Physics). In 2005, then 78-year old Burt Goldman approached us about his new project, Quantum Jumping. Burt claimed that he developed a program that teaches people how to tap into alternative realities to gain wisdom, ideas and insights to help them achieve their goals. The idea seemed too far-fetched and we quickly dismissed it. But, we were intrigued. After all Burt is one of the most respected personal growth teachers in the United States. He had studied for years under the late Paramahansa Yogananda and Jose Silva and became the #1 instructor in the Silva Method organization. He chaired the Mind Science congress in Athens in front of 2000 people his clients have included celebrities and even middle eastern royalty. But despite all this, his Quantum Jumping idea seemed so ‘out there’, that we thought it would be too risky to publish him. Then again in 2008 Burt came back to us. The 81-year old ‘monk’ had changed. In a few short years he had developed a thriving online meditation company; he had learned photography and gotten his art into galleries around the world; and he even recorded an album (and the guy had JUST turned 81)! It was then we finally decided to give Quantum Jumping a chance. Even if it was hard to believe, the idea of an 81-year old man doing SO MUCH in such a short span of time intrigued us and we wanted to know more. So how did he do it? Burt credited it all to Quantum Jumping and he explains what it’s all about below.

What Is Quantum Jumping?

Quantum Jumping is the process of “jumping” into parallel dimensions, and gaining creativity, knowledge, wisdom and inspiration from alternate versions of yourself. ...Are you still with me? Did that sound crazy? It did to me at first – and that’s precisely why I’ve been holding on
to it until the right time, a time when someone like you would would intuitively know that right
now is the time to open your mind to it. And that time is now. Why? Because science is starting
to talk about the idea of multiple universes. And experiments in Universities like Edinburgh,
Duke and Princeton are starting to show that the idea of human thought transference is real. But
just as important as the acknowledgement of experts is what I’ve seen and experienced for
myself. After sharing Quantum Jumping with selected students in my seminars, I’ve seen them achieve incredible results. Stories of incredible coincidences, stories of rags to riches,
the kind of stories you’d usually only find in those feel good Hollywood blockbusters. Plus even
ideas like Yoga, Meditation, Reiki, EFT, Auras and ESP were once thought off as being
“weird”. Now they are studied in Universities and have huge followings. And now it’s time
for you to have your own story – which is why I’ve compiled a sample 6-module Quantum
Jumping Introduction Course on this site. Feel free to browse and test it out so you can
experience Burt’s creation. But first, let me explain the theory..

The Theory of Multiple Universes and The InterConnected Mind

Do alternate versions of yourself exist in multiple Universes? Thats the premise of Quantum
Jumping. Famous scientist like Stephen Hawking, Michio Kaku and Neil Turok, all of whom are
responsible for unbelievable breakthroughs in the field of quantum physics have suggested the
existence of multiple universes. But how is an alternate universe created? Well scientist theorize
that every major decision we make in life causes a “split” in reality and creates two alternate
Universes. Yes sorta like that movie “Sliding Doors” when the character played by Gwyneth
Paltrow decides not to hop on a subway train. On that train is the man who will ultimately
become her husband. That decision causes a split in her Universe and the movie goes on to
show two versions of Paltrow’s character. One is the version that took the train and met the
husband. The other skips the train and goes on to marry someone else. Paltrow’s character
exists in 2 universes. Now think about your life. Think about all the major decisions you’ve
made that led to who you are today. Now here’s the BIG QUESTION. What if all these
decisions caused a split each time you made them. Then this means that multiple adult versions
of yourself exist in multiple universes. In one you could be unbelievably wealthy. In another you
could broke. In yet another you could be an athlete. And in another a school teacher. Or a
singer. Or a pop star, homeless person, inventor, lover and pretty much anything you can
imagine.

Parallel Minds in Parallel Universes

Burt Goldman, who has been a student of mysticism and the human mind for 59 years,
suggests this… If we exist in multiple universes. And if we’re all part of God and God is
everywhere, then we should be connected to our own selves in these multiple Universes in the
same way we are connected to all life. What then – if we could tap into these alternate lives and
draw the inspiration and ideas we need to MAKE OUR PRESENT lives richer, healthier, sexier
and better? Want to grow a business? What ideas would you gain if you could tap into that
version of yourself that is a successful entrepreneur in an alternate Universe. Looking for
health? What advice would you get if you could tap into the version of yourself that is a healthy
athlete in another dimension? Looking to improve a relationship? What guidance can you get
from tapping into the essence of yourself in a universe where you are in a glorious relationship
with someone you truly love. As You Can Imagine, The Idea Seems Plausible. But IS IT
POSSIBLE? First let me ask you a question?

Do You Wake Up Every Morning Feeling 100% Fulfilled?

Let’s not skirt the issue here. Do you wake up every morning knowing – with every fiber of your soul – that you’re enjoying the most creative life you can make for yourself?

- Do you love your work?
- Do you spend enough time with the family?
- Are you earning enough?
- Are you putting your creativity potential to full use?
- Are you as healthy as you should be?
- Are you truly happy?

99% Of People Would Say ‘No’

It’s no surprise really. We’ve all got issues in our lives that need fixing, whether they’re professional, personal or health-related. Issues that we just can’t seem to iron out, no matter where, how or who we look too. In fact, sometimes we’ve searched so much for the answer that we begin to wonder whether it really exists anywhere in this universe! Here’s the thing – sometimes, it doesn’t. What if the answers lie in a different universe. And what if there is a way to tap into this alternate plane to source the answers – just like how answers sometimes come in dreams.

Proponents Claim that Quantum Jumping has helped them...

- Intuitively and easily attract wealth and abundance
- Instantly boost creativity and pick up new skills like painting, photography and singing
- Listen to the subconscious mind and always know what decision to make when faced with multiple options
- Find inspiration, wisdom and knowledge from beyond (the subconscious mind) in every situation
- Help MANIFEST your visions and goals.

So give it a short. Download the free audios and video presentation and try the first Quantum Jumping module. 180,000 people have tried so far. Just check out the comments and response on Burt’s Quantum Jumping Blog.

Now Experience Quantum Jumping For Yourself

Designed specifically to help you understand everything about the Quantum Jumping phenomenon, the modules in the Quantum Jumping Introduction course will teach you.

- How to perform your very own Quantum Jump. And no, you don’t need any sort of psychic talent but you will automatically communicate with your subconscious every time you jump.
- What is Quantum Jumping? What it is, what it does and the story of how I discovered it.
• **Why Quantum Jumping is the key to communicating with your subconscious.** The unbelievable story of how Quantum Jumping changed my life – and how it’ll change yours.

• **What the scientists are saying.** Need proof? I don’t blame you – that’s why I’ll tell you what some of the world’s finest minds are saying.

• **PLUS:** The unbelievable tale of Sarah Zuniga. How Quantum Jumping transformed a minimum wage housemaid into a highly successful businesswoman.

Once you’ve gone through this rich multimedia course on the subconscious mind for yourself, you’ll have a firm understanding of Quantum Jumping, what it can do, and how it’s going to change your life. [Source](http://robertjrgraham.com)
