New Fantasy Novel Delves into “Personal Mastery”

Robert J. R. Graham debuts new series with the release of Seventh Journey

TORONTO – “Growing up with writers and editors in my family, I’ve always enjoyed writing and knew that I would one day write books,” says author Robert J. R. Graham. “After years of research into western/eastern philosophies, psychology, and personal mastery, I decided to pour my learning and experience into my series called *Seventh Journey*.” And pour he did.

In the series’ first self-titled book ***Seventh Journey*** ([published by iUniverse](#)), Graham weaves a fantasy story line that illustrates the power of self-realization.

In ***Seventh Journey*** readers meet Jacob Cross, a staff scientist at Netex, an advanced research firm with more than one secret agenda. Using a sound wave technology called Auditum, the nefarious research firm develops a mind-altering headset with the power to control minds and even hurl users into a different dimension.

Cross had been deeply involved in developing the headset and was lead to believe the technology would serve various medical applications. Now terrified that his invention will be used to enslave millions, Jacob sends himself through the dimensional portal. But will he be able to stop the firm’s devious plan?

Recipient of the coveted Editor’s Choice and Rising Star Awards on behalf of Publisher iUniverse. ***Seventh Journey*** is an amalgamation of Graham’s many interests. “I was inspired by a ferocious curiosity and yearning to answer life’s big questions,” he says. “This took me on a journey of research and self-awakening that continues to this day in a process I’ve labeled ‘Personal Mastery.’ Many of the concepts and principles I’ve researched are within the *Seventh Journey* series.”
