Seventh Journey

Book 1

Netex, an advanced research firm with more than one secret agenda, has developed a mind-altering headset technology designed for military use—and it now poses a threat to all of humanity. The headset uses a mysterious sound wave that can control the brain. It can also hurl users into a different dimension.

Staff scientist Jacob Cross has been deeply involved in developing this new headset technology and was told that the project was created to serve various medical applications. He now suspects that that's not entirely true. Terrified that his invention will be used to enslave millions, he sends himself through the dimensional portal. There, Jacob meets the powerful yet ghostly Tamara, who warns him that the fate of both their worlds is now linked by a shared peril. Tamara's world has fallen victim to an adversary who threatens all of existence—and who now plans to enter Jake's world as well. Jake returns to his own dimension, only to find his life turned upside down as he is caught in a murderous plot created by the CEO of Netex.

His loyalties are quickly torn between the two linked dimensions, and Jake quickly finds himself questioning his own sanity and even his ability to know what is real—and what is not.

Selling Points:

- Features real world research into sound technologies, paranormal experiences, martial arts, Arabic culture, quantum mechanics, and hidden knowledge
